

Jane Doe

Email: jane.doe@example.com

Phone: (123) 456-7890

EDUCATION

B.Sc. in Computer Science, University of Example

- GPA: 3.8/4.0
- Relevant Courses: Machine Learning, Data Structures, Natural Language Processing
- Honors Thesis: "Improving Transformer Architectures for Question Answering"

M.Sc. in Artificial Intelligence, Tech Institute

- GPA: 4.0/4.0
- Thesis: "Multi-modal Embedding Models for Human-Computer Interaction"
- Advisor: Dr. Alan Turing

RESEARCH EXPERIENCE

Research Assistant, NLP Lab, Tech Institute

- Worked on fine-tuning large language models for academic writing assistance
- Co-authored a paper on domain adaptation for scientific document summarization

Intern, AI Research Group, Example Corp

- Built a knowledge graph from biomedical literature
- Published findings at ACL 2023

PUBLICATIONS

Doe, J., & Turing, A. (2023). "Context-Aware Embeddings for Multilingual Dialogue." ACL 2023.

Doe, J. (2022). "A Comparative Study of Self-Supervised Learning Models in NLP." arXiv.

SKILLS

- Programming: Python, PyTorch, TensorFlow
- Tools: Hugging Face, spaCy, OpenAI API
- Languages: English (native), French (fluent)

INTERESTS

- Research in explainable AI, human-AI collaboration, NLP for education
- Looking to pursue a PhD in natural language processing or machine learning.
